Professional Summary

Full Stack Web Developer with **1.9 years** of experience building responsive, high-performance web applications using Angular (8–18), Java, and Spring Boot. Skilled in Full stack web development, unit testing, service integration, and Agile methodologies. Proven success in delivering scalable solutions across **Telecom** and **Investment Banking** domains.

Core Competencies

- **Frontend:** Angular (8–18), TypeScript, HTML5, CSS3, Responsive Web Design
 - **Backend:** Java, Spring Boot, REST APIs
 - **Database:** MySQL
 - **Testing:** Jasmine, Karma (Unit Testing)
 - **DevOps Tools:** Git, JIRA, HP ALM
 - **Methodologies:** Agile (Scrum), CI/CD Concepts
 - **Other Skills:** Cross-Browser Compatibility, Service Integration
-

Professional Experience

Full Stack Web Developer

Cognizant Technology Solutions | Aug 2022 – April 2024 | Pune, India

- Developed and maintained scalable, modular Angular applications for telecom and finance clients.
- Created reusable custom components, directives, pipes, and interceptors for better maintainability.
- Developed backend services with Java and Spring Boot to support frontend operations.
- Integrated REST APIs and managed service-to-UI data communication using Observables.

- Conducted thorough unit testing using Jasmine and Karma to ensure application quality.
 - Debugged backend logs, fixed defects, and optimized performance through code reviews and refactoring.
 - Handled file upload modules and API error management with efficient logging strategies.
 - Participated actively in Agile ceremonies like daily stand-ups, sprint planning, reviews, and retrospectives.
-

Projects

Project 01: Telecom Service Optimization Platform

Client: Deutsche Telekom, Germany (German Telecom Service Provider)

Domain: Telecom

Duration: Aug 2022 – Nov 2023

Project Description:

Developed and maintained a web-based CRM-T platform designed to streamline telecom service delivery, real-time monitoring, service automation, and issue tracking for internal teams and partners.

Roles & Responsibilities:

- Built and maintained responsive UI components using Angular 8.
 - Integrated backend REST APIs developed in Spring Boot.
 - Developed custom directives, pipes, and interceptors for enhanced code reusability.
 - Developed backend services with Java and Spring Boot to support frontend operations.
 - Participated in defect triage meetings and deployed code to lower environments.
 - Followed Agile Scrum practices and participated in sprint ceremonies.
 - Created unit tests using Jasmine and Karma to ensure robust code quality.
-

Project 02: Regulatory Compliance Dashboard

Client: Credit Suisse (UBS), Switzerland (Investment Management Firm)

Domain: Investment Banking | RegTech

Duration: Nov 2023 – April 2024

Project Description:

Built a regulatory compliance dashboard to automate financial reporting, manage workflows, Reporting of OTC trades, and ensure regulatory adherence for investment banking clients.

Roles & Responsibilities:

- Developed dynamic and reusable Angular 15+ components for seamless user interactions.
- Created backend services with Spring Boot and managed API integrations.
- Handled file parsing, API response mapping, and service error handling.
- Ensured responsiveness across devices using media queries and layout libraries.
- Wrote and maintained unit and integration test cases using Jasmine and Karma.
- Performed backend log debugging, defect fixing, and performance optimization activities.
- Worked closely with cross-functional teams under Agile Scrum methodology.

Education

Degree	Board/University	Institute	Year	Result
B.Tech – Instrumentation Engineering	Swami Ramanand Teerth Marathwada University, Nanded	SGGS Institute of Engineering and Technology,Nanded	2022	7.81 CGPA
HSC	Maharashtra State Board	Shri Shivaji College, Parbhani	2018	76.77%
SSC	Maharashtra State Board	Bal Vidya Mandir, Parbhani	2016	86.00%
